PRESTO

– results that count

Congratulations to the coordinator and all partners on the successful completion of the ARTEMIS 'PRESTO' project of Call 2010. PRESTO improved test-based embedded systems development and validation, while considering the constraints of the real-life industrial development process. PRESTO established functional analysis, performance analysis and platform optimisation at the early stage of the systems development, leading to much improved efficiency in the design process.

ARTEMIS partners in PRESTO

Large Enterprises

Soiteam	FRA
Thales Communications & Security SAS	FRA
Thales Italia spa	ITA

Research Organisations

INRIA	FRA
Universita degli Studi dell'Aquila	ITA
VTT Technical Research Centre of Finland	FIN

Small Medium Sized Enterprises

Metacase Consulting Oy	FIN
MilTech Hellas S.A.	GRC
PragmaDev	FRA
PrismTech Limited	GBR
Rapita Systems Ltd	GBR
Sarokal Solutions Oy	FIN
TELETEL Telecommunications & Information Technology SA	GRC
